AEATF Liquid Pour Study Proposal

Study Title: “A Study for Measurement of Potential Dermal and Inhalation Exposure During Manual Pouring of a Liquid Containing an Antimicrobial”

If the AEATF liquid pour study proposal is revised as suggested in EPA’s review and if the research is performed as described:

1. Is the research likely to generate scientifically reliable data, useful for assessing the exposure of individuals who manually pour liquid antimicrobial products?
2. Is the research likely to meet the applicable requirements of 40 CFR part 26, subparts K and L?
